Optipower Ultra 22v 5000mAh 50C 6S packs

OPR50006S50 £174.99 x 2

ALTERNATIVE:

Introduced in 2022, PIUMA (feather in Italian) is synonymous with lightness. This 700-sized model is extraordinarily light and comes up with a new style of flying. Although it can be run with both a 6S and 12S set up, our recommendation and components below are for the 12S set up as this will give you a low current draw, cool running and longer flight times.

SAB Goblin 700 Raw Piuma
SG749 £789.99
